CAREER OBJECTIVE

I am seeking an opportunity to use my skills and abilities to make a positive impact on an IT organization. I'm also a team player who is able to work effectively in a fast paced environment. I'm committed to continuous learning and willing to take new challenges to grow my technical and managerial skills while fulfilling organizational goals.

EDUCATION

Dev Bhoomi Uttarakhand University   August 21 - May 25
Bachelor of Technology - Computer Science

EXPERIENCE

Tech Superior Consulting   April 25 - June 25
Software Engineer   Gurugram, Haryana
- Built and styled responsive user interfaces, integrating dynamic forms with Zod for robust validation.
- Collaborated in an Agile Scrum environment to deliver high-quality features, modals, and API-integrated components.
- Streamlined frontend-backend integration for seamless data flow, ensuring consistent user experience across the application.

PROJECT

RentWise [link]   September 24
Tech Stack : PHP, MySQL, XAMPP, Javascript, Bootstrap, CSS, HTML
- Engineered a responsive full-stack web application using PHP and MySQL, enabling dynamic search and management of PG accommodations with advanced filtering options.
- Implemented secure user authentication and session management, enhancing user data privacy and overall application security.
- Optimized database performance with efficient SQL queries, ensuring fast data retrieval and improved application responsiveness.

Movie Search   March 25
Tech Stack : React, Vite, JavaScript, Fetch API, Local Storage, CSS, HTML
- Developed a responsive web application using React and Vite, implementing modern frontend development practices.
- React's component-based architecture to create reusable and efficient UI components.
- Configured Vite for optimized development and build processes, ensuring fast performance and seamless integration.
